N/A

**OBSERVED VIOLATIONS**

1. N/A

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may also be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

**ADDITIONAL COMMENTS**

1. Received cease operation form from Nelson Bates. Property has been sold. Received copy of site logs – approximately 61,600 gallons have been applied since soil samples were taken in November. Last two soil reports show that the pH is 7.1 which is higher than the required 6.5 for site closure. Visited site but could only observe from a distance. Large area on property (which includes where the disposal field was located) has been disturbed and is currently covered with a tarp for fumigation/sterilization with bromide gas. Septage Land Application Site permit will be closed out.
  
2. Enclosed is information regarding the steps to obtain a permit for a new land application site.

Please contact me if you have any questions or concerns regarding this inspection report.
