**ADDITIONAL COMMENTS**

1. Appropriate signage present at entrance to the fields.
2. Path to the field was in good shape.
3. Site managed as one field instead of three. Fields are no longer being grazed by cattle.
4. All septage discharges were within the permitted boundaries of the fields.
5. No spot dumps or thick applications noticed.
6. Fescue was present. Areas of the field needs to be reseeded in fescue. The stand is thinning out in places.
7. No application at time of inspection. pH of septage not checked.
8. No objectionable odors noticed today.
9. No change noticed with any of the setbacks.
10. Records not checked.
11. I collected a soil sample from the field.

Please contact me if you have any questions or concerns regarding this inspection report.
