Subject: Request for Waste Disposal Clarification, Approval
Duke Energy Landfill Facilities, DIN 25524

Dear Ms. Hutchinson:

On January 20, 2016 the Division of Waste Management, Solid Waste Section (Section) received Duke Energy's request, entitled;

Request for Waste Disposal Clarification, Duke Energy North Carolina Operational Landfill Facilities. Prepared by Duke Energy. January 2016. DIN 25523.

The request concerns Duke Energy's plan to place incidental amounts of geotextile used in the management of CCP's into its operational landfills. The geotextile materials are to be porous in nature and may include but are not limited to: silt bags, bag house bags, geotubes, and geotextile fabric used to manage CCP material.

The Section has reviewed the request and hereby approves the immediate implementation of the plan for disposal. Duke Energy shall consider the referenced request (DIN 25523) as an approved document. The Duke Energy facilities should operate in the appropriate manner until the current specific facility permits are either amended or modified. Therefore, the next time a Duke Energy facility prepares either a permit amendment or modification it is expected to submit an updated operations plan which includes the disposal of incidental amounts of geotextile used in the management of CCP's into its operational landfill. The requested list of facilities includes;

- 3612-INDUS Allen Steam Station RAB Landfill
- 8504-INDUS Belews Creek Steam Station Craig Road Landfill
- 8505-INDUS Belews Creek Steam Station FGD Landfill
- 8106-INDUS Cliffside Steam Station (Roger's Energy Complex) Landfill
- 1812-INDUS Marshall Steam Station Industrial Landfill #1
- 7305-INDUS Mayo Steam Electric Plant Landfill
- 7302-INDUS Roxboro Steam Electric Plant landfill

The Section requests the following facility operation plans be revised at the appropriate times, as well;

- 1809-INDUS- Duke Power/Marshall Steam Plt FGD
- Proposed Landfill, Duke Energy - Dan River Steam Station
- Proposed Landfill, Duke Energy, L.V. Sutton Energy Complex.

Should you have any questions regarding this matter contact me at (828) 296-4704 or larry.frost@ncdenr.gov.

Sincerely,

Larry Frost, Engineering Project Manager
Permitting Branch, Solid Waste Section
Division of Waste Management, NCDEQ
