Subject: Permit Application Complete and Review
City of Goldsboro Transfer Station
Permit No. 9607T-TRANSFER-1997, Wayne County, Document ID No. 25635

Dear Mr. Jones:

The Division of Waste Management, Solid Waste Section, has received your permit amendment application for the City of Goldsboro Transfer Station (Permit No. 96-07T) (DIN 25634). This letter is to notify you that the application is considered complete within the context of North Carolina General Statute (NCGS) §130A-295.8(e).

A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. A technical review of your application was also conducted and there are no additional questions or comments concerning the application submittal at the current time.

Under NCGS §150B-3, when an applicant makes a timely and sufficient application for issuance or renewal of a permit, the existing permit does not expire until a final decision on the application is made. The Section is in the process of revising the rules for permitting transfer stations based on legislation passed by the General Assembly last year. This will affect permits that expire after July 1, 2016, such as yours. We expect this will delay issuance of your renewed permit, however, until the final permit decision is made, you are authorized to continue operation of the City of Goldsboro Transfer Station in accordance with your most recent Solid Waste Permit and the Solid Waste Management Rules (15A NCAC 13B).

If you have any questions regarding this matter, please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Patricia Backus, P.E., Environmental Engineer
Division of Waste Management, NCDEQ
