**ADDITIONAL COMMENTS**

1. The structural fill project on Highway 46 is located near Garysburg, NC. According to the Northampton County Tax Assessor it is identified as Parcel # 4918-28-8013. The property is owned by Henry B. Long.
2. Approximately 480,612 cubic yards of coal combustion products were utilized in the construction of the structural fill. The structural fill operation was performed by Plumblin Corp, P.A.. The coal combustion products were generated by the Roanoke Valley Energy Facility in Weldon, NC.
3. The stated purpose of the structural fill in the Notification received by the Solid Waste Section on April 22, 2004, was "to construct an Industrial/Commercial site for a private developer. The end-use of the site will be for office buildings..." As of the date of the inspection, no buildings have been constructed on the property.
4. The site was recorded by the property owner, Henry Bourne Long, with the Northampton County Register of Deeds on April 17, 2009. The recordation can be found in Book 00927, Page 0618.
5. The facility shall be covered with a minimum of 12-inches compacted earth and an additional 6-inches of surface soil capable of supporting native vegetation as per 15A NCAC 13B .1705(j). The site appeared to be fully vegetated at the time of the site inspection except for areas disturbed by vehicles.
6. Some staining was visible at the toe of the southern slope. The NCDEQ Division of Water Resources has been contacted for follow-up regarding possible impacts to wetlands.

Southern slope of the structural fill looking east.
