SUBJECT: Underground Storage Tank (UST) Closure Assessment at
American Drew #14, Highway 268 East, Elkin, Wilkes
County

Dear Mr. Brock:

The Groundwater Section of the Winston-Salem Regional Office is now reviewing the UST closure assessment for the subject location. In order to determine whether or not the closure was performed in accordance with State and Federal regulations, the Groundwater Section must be provided with the following information by August 21, 1992:

Confirmation that all contaminated soils were removed from the excavation or remediated in-situ, i.e. a site assessment must be submitted to this office.

Your co-operation is appreciated. Please refer to the file name, American Drew #14, on the cover letter of your reply. This will help us speed up the review.

If you have any questions please contact me at the letterhead address and/or telephone number. I am available during the hours of 9:00 to 10:00 a.m. and 1:30 to 2:30 p.m.

Sincerely,

A handwritten signature in cursive script that reads "Thomas A. Salley".

Thomas A. Salley
