Charlotte, NC 28230-0451

Subject: Exxon Company USA RAS #43998, 4701 W. Market St., Greensboro,  
Guilford County, NC  
Ranking: **INTERMEDIATE RISK**  
Groundwater Incident # 10001

Dear Mr. Medlin:

Our office has reviewed the Comprehensive Site Assessment (CSA) and the Comprehensive Site Assessment Addendum Report prepared by ERM-Southeast, Inc. Consultants for the subject site. We offer the following comments:

1. The extent of the contamination has not been defined. Further delineation is required to the south of the site.
2. New sampling methodology consistent with the guidelines associated with new risk based rules adopted on January 2, 1998 should be utilized in "hot spot" areas in order to establish levels of contamination correlating with the new rules.

These discrepancies must be reconciled before the CSA can be accepted by this office. Please resubmit a revised, complete CSA to this office on or before April 24, 1998. No additional extensions will be granted. If you have any questions, please contact Kelly Gage at (336) 373-3771.
