Mr. Waddell Waters
North Carolina DEM
8025 North Point Blvd, Suite 100
Winston Salem, North Carolina 27106-3203

Dear Mr. Waters:

Enclosed is a revised Site Plan illustrating the proposed well locations for the next phase of assessment at the Harold Hall property in Jamestown, North Carolina. These well locations were selected to assess the upgradient and downgradient extent of the contaminant plume.

Engineering and Environmental Services (EES) will proceed with the installation and sampling of the wells as soon as the North Carolina Department of Transportation (DOT) approves our encroachment permit application. If you have any questions about the project, please contact me at (704) 328-2991.

Sincerely,

A handwritten signature in black ink, appearing to read 'Keith C. Seramur'.
