Re: Meeting June 30, 1993
Draper Corporation Facility
5644 Hornaday Road
Greensboro, North Carolina 27409

Dear Mr. Sieg:

Thank you for taking the time to meet with us last week concerning the Draper Corporation site in Greensboro. We feel that it was a very positive and informative meeting and that such communication will certainly facilitate progress on the site.

Based on our discussion in the meeting, we understand that the deadline for the Comprehensive Site Assessment for the Volatile Organic Compounds found in the groundwater at the Draper site has been extended to September 15, 1993 (60 days from July 17, 1993). Also, the associated Corrective Action Plan has been extended to November 14, 1993 (60 days from September 15, 1993).

If you are not in agreement with this understanding or if you have any comments concerning our conversations, please contact me at 766-0810 or at the above letterhead address.

Respectfully,

W. Steven Johnson
Triad Environmental Consultants, Inc.
