Re: Request for 30 Day Extension
Corrective Action Plan 30,000 Gallon No. 4 Fuel Oil UST Area
Draper Corporation, 5644 Hornaday Road Facility
Greensboro, North Carolina 27409

Dear Mr. Sieg:

This letter is to request a 30 day extension to the deadline for the Corrective Action Plan (CAP) for the above referenced facility. This will make this plan due September 24, 1993.

After your contact with the Raleigh office and our discussions with you concerning remediating the soils by air sparging or biological treatment, Triad Environmental Consultants, Inc. and representatives of the Draper Corporation and their attorneys have decided to consider alternative types of remediation techniques to treat the tank and product line area. A 30 day extension should provide the time needed to explore and recommend an appropriate remediation alternative(s) for this site.

Triad Environmental Consultants, Inc. would appreciate your consideration of this request for an extension and await your reply. If any questions arise concerning this letter or should you require additional information, please contact me at 766-0810.

Respectfully,

M. Alex McGilvary, P.G.
Triad Environmental Consultants, Inc.
