Attention: Steve Kay

Dear Steve:

Attached for your review are copies of the test results (3550 + 9071) on five (5) underground tanks removed from the Luck's, Incorporated premises. Spatco Environmental was contracted to take soil samples and provide analysis.

As stated on the phone we are very disturbed at these findings as there was no physical evidence of any soil contamination or leakage from these tanks.

Also, enclosed is a copy of the Certificate of Tank Disposal as required.

Please review and respond.

Sincerely,

Darius Luck
