Ms. Kelly Gage
Guilford County Department of Emergency Services
P.O. Box 18807
Greensboro, NC 27419

Dear Ms. Gage:

During April of 1993 Unicon Concrete, Inc. removed an underground gasoline storage tank from our site at 406 Tomlinson Street in High Point, North Carolina. We had thorough testing done on the site, with the results being forwarded to the Winston-Salem office of the NC Department of Environment, Health & Natural Resources.

I would like to know the procedure for disposing of the excavated material that is presently stockpiled at the area where the removal was done. We have been keeping this for over 1 1/2 years and have kept it covered with black plastic, which has had to be replaced over the period due to dry rotting.

Please let me know as soon as possible what the proper course of action will be so that we can remove this soil.

Very truly yours,

UNICON CONCRETE, INC.

Gary S. McLamb
Triad Area Manager

He will resample and if <10ppm -> COA.
