Re: B&C Grocery – Sampling Trip Summary
NONCD0002837

-
- On November 15, 2011, Larry Rose and I visited the site to sample water supply wells in the area. We had not received permission to sample any wells. One property owner called to say that he was connected to public water. No others responded to request to sample.
 - While on site, neither Larry nor I were able to locate any wells and/or well houses. Water lines were clearly present along the property frontages with the observation of fire hydrants and water valves.
 - While we were in the area we spoke with Rosa McVey and Barbara Vincent who both stated that they as well as all the residences in the area had been connected to public water and the wells had been closed by contractors several years ago.
