Re: *Submittal of Groundwater and Surface Water Monitoring Results Second Semiannual 2015 Event*  
Monitoring Well Request  
Lake Norman C&D Landfill  
Lincoln County  
Solid Waste Permit Number 55-04  
DIN 25735

Dear Mr. Gurley:

The Solid Waste Section has completed a review of the *Submittal of Groundwater and Surface Water Monitoring Results Second Semiannual 2015 Event* dated February 12, 2016 (DIN 25734) and submitted on behalf of Republic Services, Inc. by Jett Environmental Consulting for the Lake Norman C&D Landfill, Solid Waste Permit Number 55-04. The landfill entered the Assessment Monitoring Program in accordance with 15A NCAC 13B .0545 in March 2015.

Republic Services, Inc. is requesting that groundwater monitoring well MW-4 be abandoned due to well construction problems. The adjacent downgradient groundwater monitoring well MW-5 would be utilized instead as a replacement groundwater monitoring well within the compliance monitoring network at the landfill. Groundwater monitoring well MW-4 will not be sampled during the May 2016 event.

As a result, the request is approved at this time. After proper abandonment is completed in accordance with 15A NCAC 2C, please submit a Well Abandonment Record to both the Division of Water Resources and the Solid Waste Section. Please also continue Assessment Monitoring at the landfill. If you have any questions or concerns regarding this letter, please feel free to contact me at 828.296.4706 or by email at [jaclynne.drummond@ncdenr.gov](mailto:jaclynne.drummond@ncdenr.gov). Thank you for your cooperation with this matter.

Sincerely,

Jaclynne Drummond  
Compliance Hydrogeologist  
Solid Waste Section, Division of Waste Management
