CERTIFIED MAIL

Dear Mr. Moon:

On July 1, 1987, the Guilford County Division of Environmental Health implemented Rules and Regulations Governing the Abandonment and Reporting of Leaks from Underground Storage Tanks within the county. The purpose of these Rules and Regulations is to protect public health from the contamination of public and private water systems and to remove potential sources of contamination of ground and surface waters and other natural resources.

It has been brought to the attention of this department, that these conditions exist at your property located at 793 N. Main Street, High Point, NC. Guilford County Rules and Regulations Governing Underground Storage Tanks and the Reporting of Leaks, Section 5: requires that notification be made to the Health Department and appropriate fire officials on the attached form provided by the county.

Please complete the enclosed notification form and return it to this office within ten (10) days of receipt.

Upon receiving this written notice, you shall have sixty (60) days in order to properly abandon, or remove the tank(s) in question. You must notify our office prior to taking one of the above actions.

I have enclosed a list of local contractors which can help you in either abandoning or removing your tank(s).
