Re: Updated EPA Form 8700-12 for # NCD990867152

To whom it may concern,

This letter is for notification of updating the status of our site.

As we generate a very low quantity of hazardous waste each month, an 8700-12 Form is enclosed to change our site from a RCRA Large Quantity Generator to a Small Quantity Generator. Comments regarding this has been added to Section 13 of the form. It is understood that the site must follow all SQG guidelines, such as performing weekly inspections, maintaining on-call emergency coordination, and managing the 180-day storage time.

Should you have any questions or concerns, please contact me using the information below.

Best regards,

Marc S. Kesten – EHS Coordinator
