Re: *Source Demonstration Work Plan Groundwater Assessment Phase 1*
C&D Landfill, Inc.
Pitt County
Solid Waste Permit Number 74-07
DIN 25790

Dear Mr. Whitehurst:

The Solid Waste Section has completed a review of the *Source Demonstration Work Plan Groundwater Assessment Phase 1* dated March 17, 2016 (DIN 25789) and submitted on behalf of C&D Landfill, Inc. by SCS Engineers, PC for the C&D Landfill, Inc., Solid Waste Permit Number 74-07. The work plan was submitted in response to continued volatile organic compounds being detected at the landfill and in accordance with 15A NCAC 13B .0545. The landfill has been in the Assessment Monitoring program since 2009.

The work plan includes subsurface soil sampling at specific locations including one background sample. A PID meter will be used to scan the soil samples, and the soil samples will be analyzed for volatile organic compounds (EPA Method 8260B) and chlorinated herbicides (EPA Method 825 1A). A summary report will then be submitted to the Solid Waste Section.

As a result, the *Source Demonstration Work Plan Groundwater Assessment Phase 1* is approved as described. Please implement the work plan within 90 days of receipt of this letter. If you have any questions or concerns regarding this letter, please feel free to contact me by phone at 828.296.4706 or by email at jaclynne.drummond@ncdenr.gov. Thank you for your continued cooperation with this matter.

Sincerely,

Jaclynne Drummond
