Subject: Determination of Completeness – Application Complete
Madison County Unit 2 CDLF & Transfer Station
Madison County, Permit # 58-03, Document ID 25935

Mr. Harris,

The Division of Waste Management, Solid Waste Section (Section) has received your request for the *Five-year Permit Renewal* (DIN 25537) for the above referenced facility. The document was submitted on your behalf by McGill Associates and was received in the Asheville Regional Office on January 15, 2016.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee has been paid and all of the components required by 15A NCAC 13B.0535(b) have been submitted, or are currently part of the approved plan, so the application is deemed **complete**.

If any additional information is required to complete the permitting activity, it will be requested in the future under separate cover.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
