Dear Mr. Herring:

The Phase II Environmental Site Assessment received by the UST Section, Winston-Salem Regional Office on October 26, 2006 and the Report of Environmental Services received on January 5, 2007 have been reviewed. The review indicates that soil contamination does not exceed the lower of the soil-to-groundwater or residential maximum soil contaminant concentrations (MSCCs), established in Title 15A NCAC 2L .0411.

The UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment. Pursuant to Title 15A NCAC 2L .0407(a) you have a continuing obligation to notify the Department of any changes that might affect the risk or land use classifications that have been assigned.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact Sharon K. Cihak at the Guilford County Dept. of Public Health, 1203 Maple Street, Greensboro, NC 27405 and/or at (336) 641-3541.

Sincerely,

Cindy H. Rintoul, L.G.
