Re: Pagetown Curb Market

Dear Steve:

I have enclosed a copy of the soil sample from under the tanks that we dug up at Pagetown Exxon. As you can tell, the soil was acceptable. We have removed the old tanks and planted two STPH3 tanks. The old tanks have been disposed of by the contractor.

Also, we brought the gasoline tanks up to EPA specifications while we replaced these tanks. I appreciate your cooperation in this installation.

Sincerely,

RENIZ OIL COMPANY, INC.

Reid Teague, Sec.-Treas.
