Regional Office

Dear Mr. Stewart,

On May 1, 1989, the Nello L. Teer Company plans to remove five existing underground gas and heating oil tanks located across the intersection of Jonestown and Vest Mill Road in Winston-Salem, N.C.

Four of the tanks are 15,000 gallons each and contained gas or fuel oil. The fifth tank is a 550 gallon heating oil tank.

Upon removal of these tanks, the surrounding soil will be tested by a certified laboratory to determine the necessary steps, if any, to be taken for the disposal of any unsuitable materials.

If you have any questions concerning this matter, please call at 760-2390.

Yours truly,

George Greene
Project Manager
