MID-ATLANTIC ASSOCIATES JOB NO. MAA-95-250J**

Dear Mr. Amsbaugh:

Per our telephone conversation relative to the above-referenced facility, my review of our field notes and conversations with our subcontractor on the project, Evergreen Environmental, indicate that residual product was not evacuated from the vessel in question, as less than 30 gallons of product remained in the tank at the time of its removal. As such, it appears that this activity was mistakenly reported in Section 2.1 of our August 31, 1995 UST closure report. We regret any inconvenience that this may have caused you and hope that the site can now be closed out in accordance with State and Federal regulations.

Thanks for your assistance in this matter. If you have any questions, please feel free to call me at 919-250-9918.

Sincerely,

MID-ATLANTIC ASSOCIATES, P.A.
