Dear Ms. Alexander,

Enclosed you will find a copy of a South Carolina Department of Health and Environmental Control Hazardous Waste Manifest, OMNI approval letter, and a certificate of recycling pertaining to the paint related waste.

Please note the generators U.S. EPA ID number listed as: NCD984908202. On August 5, 1996 we discovered through Jim Edwards with the State of North Carolina, Hazardous Waste Division that the above EPA ID number is not correct. Jim informed us that the correct number should be: NCR000002006.

By way of this letter, we are asking you to update your records for this past shipment, and we will ensure that this will not happen in the future.

We hope this letter will correct this problem, but please call if you have any questions.

Best regards,

Doug Wright

Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, FM-223, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

RE: WASTE PROFILE NUMBER: Stream SE-22544-F005

Your Authorization Request Form has been submitted for you to SCDHEC on June 21, 1996. Southeastern Chemical is fully capable, permitted, authorized and willing to accept and handle your waste in an environmentally safe manner.

A copy of your ARF and a S.C. Manifest are enclosed so that you may familiarize yourself with them. We will originate the manifest for you whenever a pickup is scheduled unless you prefer otherwise. Please let us know if this is the case.

LAND DISPOSAL RESTRICTION CERTIFICATION

A Land Disposal Restriction Certification (2 pages) must accompany each shipment of hazardous waste. A form is enclosed which is suitable for your use. This certification must have an original signature and filling it out is the generator's responsibility. Please retain a copy with each shipment of your waste for your records as it is required by inspectors.

DOT SHIPPING CODE:

WASTE PAINT RELATED MATERIAL. 3. UN1263, III
(D001, F005)

The above underlined DOT shipping code has been assigned to the your waste profile number. It is an important item that should be reviewed prior to first shipment.

Please review the Authorization Request Form carefully as any subsequent changes made (contact person, DOT/EPA waste codes, etc.) will entail an amendment process. You will be contacted by our office to schedule a pick-up of your waste. If you have any questions, please do not hesitate to contact us. We appreciate your business and look forward to working with you.

the total solution.

CERTIFICATE OF RECYCLING/MATERIALS RE-USE

Generator: **IRA L GRIFFIN SONS**
Address: **2205 NORTH TRYON STREET**
CHARLOTTE NC 28234

I.D. Number: **NCD984908202**
Manifest Shipment No.: **54585**

Date of Shipment: **07/11/96**

Southeastern Chemical I.D. No.: **SCD036275626**
Facility Address: **755 Industrial Blvd.**
Sumter SC 29151

On the above date, your waste material was picked up and transported to our facility for the purpose of treatment and/or recycling and/or fuel blending. Any recycled material was returned to either the original generator or subsequent user for beneficial re-use.

If any residue remained or the original intent of the shipment was for fuel blending, the material was blended at our facility and subsequently shipped off-site to any one of several EPA approved rotary cement kilns where the material was used for fuel.

If material is treated, it was processed in accordance with state and federal regulations and disposed of in a proper manner.

THIS ENTIRE PROCESS IS GENERALLY COMPLETED WITHIN A 30-DAY PERIOD FROM THE DATE OF THE SHIPMENT.
