Re: Facility Compliance Inspection Report – Soil Results
Charlotte Motor Speedway MSW Landfill V
Cabarrus County
Solid Waste Permit Number 1304
DIN 25950

Dear Mr. Gurley:

The Solid Waste Section has completed a review of the analytical soil results dated March 24, 2016 (DIN 25949), received via email on April 11, 2016, and submitted by Republic Services, Inc. for the Charlotte Motor Speedway MSW Landfill, Solid Waste Permit Number 1304. The analytical soil results were submitted in response to a release within the ditch line and initial analytical soil results.

Republic Services, Inc. excavated the ditch line, and a soil sample was collected on March 18, 2016 to evaluate the extent of the potential environmental impacts. The soil sample was analyzed for Appendix I of 40 CFR 258 constituents by a NC certified laboratory. The analytical results indicated no volatile organic compounds exceeded the Preliminary Soil Remediation Goals (PSRGs).

As a result, no additional environmental assessment associated with this release is required at this time. If you have any questions or concerns regarding this letter, please feel free to contact me at 828.296.4706 or by email at jaclynne.drummond@ncdenr.gov. Thank you for your continued cooperation with this matter.

Sincerely,

Jaclynne Drummond
