Re: Initial Site Sampling Plan per IANOV Docket Number 2006-203

Dear Ms. Sharpe:

I have reviewed the report of the activities conducted for the Initial Site Sampling Plan for the former Carolina Chemical Corporation facility in response to the IANOV Docket Number 2006-203. The plan specifies further assessment activities to be conducted. The assessment activities as specified in the plan are approved and may be implemented as soon as is practical.

Please contact either Dick Denton (252-758-9647) or myself (828-625-0171) when you anticipate on-site activities to be conducted to allow us to be present if possible. Sufficient notice should be given to allow for schedule coordination.

To ensure continued compliance with this Notice of Violation, these assessment activities must be completed no later than January 1, 2008.

If you have any questions concerning this matter, please contact me at the number listed below.

Sincerely,

Roberta Proctor, Environmental Chemist
Hazardous Waste Section
