Docket # 2007-009

Persons contacted: Ms. Carina Bisette

REPORT:

A site visit performed 15 Sep 2006 revealed that various lab chemicals from the school's labs had been stored in a small building located at the waste water treatment plant. The lab chemicals included the following but the list is not limited to the noted items:

1. alcohol
2. ether
3. manganese
4. methyl blue
5. acetone
6. various powders
7. Mercury thermometers

The school principal, Ms. Carina Bisette, was informed that the chemical inventory was not properly stored and that a waste determination for "hazardous waste" would have to be made for any chemicals that would be discarded.

A NOV will be issued for 40 CFR 262.11.

Docket # - 2007-009
Facility Type: CESQG

On December 18, 1980, the State of North Carolina, Hazardous Waste Section (State) was authorized to operate the State RCRA hazardous waste program under the Solid Waste Management Act (ACT), N.C.G.S. 130A, Article 9 and rules promulgated thereto at 15A NCAC 13A (Rules) in lieu of the federal RCRA program.

On 15 September 2006, Dick Denton, representing the N.C. Hazardous Waste Section, inspected your facility for compliance with North Carolina Hazardous Waste Management Rules. During that inspection, the following violations were noted:

Specifics

40 CFR 262.11 in that lab chemicals from the school's labs have been stored in a storage building without making a determination if any of the chemicals are a hazardous waste.

You are hereby required to comply with the noted violation(s) by 15 November 2006, at which time a reinspection will be performed. If compliance with the violation(s) noted above are not met, pursuant to N.C.G.S. 130A - 22(a) and 15A NCAC 13B .0701 - .0707, an administrative penalty of up to \$25,000.00 per day may be assessed for violation of the hazardous waste law or regulations.
