Reason for Visit: Complaint

Report: Ohio EPA stated they have an enforcement case against a Godwin owned company and gave us a courtesy call that mismanagement of waste may be occurring at other Godwin sites. I visited the site on Oct. 11, 2007 and met Bob Bell, GM. Mitchell Stevenson showed me around the facility. The facility manufactures truck bodies. Used oil is generated at the facility. They were instructed to label the containers 'used oil'. Noble picks up the used oil. The truck bodies are degreased, rinsed, and powder coated. The rinsed degreaser is collected in a tank, and discharged to the Dunn POTW. The facility was clean and well maintained. No problems noted.
