Re: RCRA 2020 Corrective Action Universe  
City of Statesville - Third Creek Monofill  
Statesville, NC  
EPA ID # NCR 000 001 602

Dear Mr. Byerly:

The North Carolina Hazardous Waste Section (Section) and the U.S. Environmental Protection Agency (U.S. EPA) have compiled a list of all facilities deemed appropriate and important to address using the Resource Conservation and Recovery Act's (RCRA) Corrective Action Program. Because this set of 3,880 facilities has national remediation goals which will culminate in the year 2020, it is referred to as the 2020 Corrective Action Universe. **Your facility is part of this 2020 Universe.** As a result, the Section and U.S. EPA expect that a final remedy will be in place (i.e., remedy construction completed) at your facility by 2020 (although actual attainment of cleanup goals through remedy implementation may take a while longer). If we haven't already done so, we will be working with you to develop a plan and a schedule that achieves this goal before 2020.

Your facility has been included in the 2020 Universe because either:

- It already belongs to the 2008 Corrective Action Baseline,
- It has a RCRA permit obligation, or
- The North Carolina Hazardous Waste Section and U.S. EPA agreed that it needs cleanup under the RCRA Corrective Action Program

Inclusion on this list does not imply failure on your part to meet any legal obligation, nor should it be construed as an adverse action against you. It only means that the Section and U.S. EPA has identified your facility—and every other facility in the 2020 Universe—as needing to complete RCRA Corrective Action. Our national program goal is to largely address these cleanup obligations before the end of 2020. Accordingly, progress will be measured for each facility in the 2020 Universe. The list of facilities will be posted on the U.S. EPA's web site at <http://www.epa.gov/correctiveaction> on April 16, 2007.

The Section and U.S. EPA will work to address remediation concerns at your facility in a manner consistent with your plans for the property. If you believe that facility-wide corrective actions are already complete for your site, please notify Larry Stanley of the Section.

Please contact Larry Stanley at (919) 508-8562 if you have further questions regarding this letter.

Sincerely,

Bud McCarty, Head  
Facility Management Branch  
NC Hazardous Waste Section
