Re: Permit to Operate: Riverside Stump Dump at Mills River, Henderson County, Permit No. 4507-TP,
Doc ID 25876

Dear Mrs. Ray:

Please find enclosed the Permit to Operate for the Riverside Stump Dump at Mills River. The expiration date for the permit is April 13, 2021.

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

The stamped approved permit application is enclosed. Other documents for the facility can be viewed on our website:

<https://deq.nc.gov/about/divisions/waste-management/waste-management-rules-data/e-documents>. We are transitioning to a new database, and currently some documents are on the old CARA database and some are on the new Laserfiche. Eventually all documents will be moved to the new database. To search, either type in "4507-TP" in the ID box, and/or "Riverside" in the Name/Subject box, or type "Riverside" in the search box at the top of the Laserfiche page.

If you have any questions regarding the permit or conditions, or with the online Documents database, please contact me at (919) 707-8255 or by email at donna.wilson@ncdenr.gov. The Solid Waste Management Specialist for the facility is Lee Hill. He can be reached at (828) 296-4700.

Sincerely,

Donna J. Wilson
Environmental Engineer
Solid Waste Section
