EPA ID: # 088 560 032

Dear Mr. Dever:

I have reviewed the above referenced report, which evaluates the habitat along and within Walnut Creek. The results of this report were compared to findings from the 1997 *Biological Assessment of Walnut Creek*. The evaluation and comparison yielded similar findings, indicating that there has been relatively little change in the stream habitat or water quality along the study area. I have no comments at this time.

If you have any questions or comments, please do not hesitate to contact me at (919) 508-8568 or vial email at mary.siedlecki@ncdenr.gov.

Sincerely,

Mary Siedlecki
