Re: Liquefied Natural Gas Plant, 11001 McCoy Road, Huntersville, North Carolina

Dear Mr. DePalma:

I have reviewed the Waste Management Plan- Phase II Excavation submitted by your consultant via electronic mail on August 27, 2009. The plan is approved with the following clarification: all samples collected from the temporary staging piles must be core samples and representative of the entire pile. The plan may be implemented as soon as practical. Please advise this office and Mr. Mark Burnette when field operations commence.

If you have any questions concerning this matter, please contact me at the number listed below.

Sincerely,

Roberta Proctor, Environmental Chemist
Hazardous Waste Section
