Inspector(s) - Ernest Lawrence

Date of Inspection - 10/17/2013

Last inspection date – 1/19/2007

Status - CEG

Inspection Type - CEI

Present at Inspection – Karl Moretz, Ernest Lawrence

Facility Description

High Country Honda is a car dealership that sells new and used Honda vehicles. The facility also does general service and maintenance. No body work is done at the facility.

The facility has one building and is on an estimated 2 acres. The facility has 24 employees. The facility is on municipal water and sewer. The nearest residence is about ¼ mile from the facility.

Used oil is generated and stored in a 500-gallon tank inside the building in an oil room. Used oil is pumped into the unit from the service area. It is picked up by Safety-Kleen for recycling.

Wastes Generated

The facility has used a 10-gallon parts washer that generates D039 waste. It was last serviced by Safety Kleen in January 2013. It was replaced by a SmartWasher that uses a microbial mix to degrade oils and grease. Some used antifreeze is generated and it is placed into the used oil.

Required Equipment

Internal communications or alarm system that provides emergency instruction to personnel? Yes

Fire extinguishers and fire control equipment, spill control and decontamination equipment? Yes

Storage Areas(s)

There was no storage area.

Emergency Coordinator on premises or on call at all times?

Yes. Mr. Hampton is the emergency coordinator.

Manifests

No manifests were available. The Safety-Kleen parts washer was removed in January 2013.

Used Oil

Used oil is collected in a 500 gallon tank and is shipped by Safety Kleen. The tank was labeled "Used Oil" and there were no releases.

Universal Waste

No universal waste was observed.

Deficiencies

None
