Inspector (s) – Ernest Lawrence

Date of Inspection – March 12, 2014

Last Inspection Date – Initial Inspection

Status – CEG.

Inspection Type – CEI

Present at Inspection –Jeff Buff, Ernest Lawrence

Facility Description

Bufs Body Shop is primarily a towing shop that also does auto body and paint work. The facility also buys and repairs damaged cars for re-sell.

The facility has four employees that work one shift. It uses city water and has a septic tank. It is over ¼ mile from the nearest residence and over 3 miles from the nearest off site well. The facility is on an estimated 25 acres.

The facility has an on-site solvent reclamation unit. It has a capacity of five gallons. Spray guns are cleaned with mineral spirits and a D001 waste is generated.

Wastes Generated

D001 paint waste with mineral spirits which is recycled on site.

Manifests

No hazardous waste has been shipped the past three years.

Storage Area

The facility does not have a hazardous waste storage area.

Satellite Accumulation Area

There is one 5-gallon satellite accumulation container in the paint mix room. The painter said that about four gallons is generated monthly. The paint waste is transferred to the solvent reclamation unit.

Used Oil

Used oil is generated from facility trucks. This is burned in an on-site heater. At the time of inspection there were three 55-gallon containers and one 500-gallon tank of used oil. These were marked "Used Oil" during the inspection.

Universal Waste

No universal waste was observed.

Site Deficiencies

None
