Re: RCRA Corrective Measure Study (CMS)

Dear Mr. McDaniel,

I wanted to follow up from our conversation on October 13, 2015 regarding the submission of the Corrective Measure Study for AOC 26-Stoddard Fuel Release Area. Per your letter dated September 7, 2015, the Department of Environmental Quality, Division of Hazardous Waste requested a Corrective Measure Study be submitted to your attention no later than December 7, 2015.

Since Magneti Marelli's induction into the Fiat Chrysler Automotive (FCA) family, our purchasing operating procedures have changed requiring us to seek out a minimum of three (3) Requests for Proposals. Accordingly, I prepared the Request for Proposals for submission to a total of four (4) Consulting/Engineering firms. I am currently awaiting their submission of their bids and anticipate them back by Friday October 30, 2015.

Once the bids are submitted, a consultant firm will be selected and the process of submitting a Purchase Requisition will be completed. Unfortunately, due to the anticipated amount of the bids approval will be required from our Headquarters in Bologna, Italy.

Therefore, our verbal agreement on October 13, 2015 was to extend the submission of the Corrective Measure Study (CMS) to February 28, 2015. We appreciate the Division's willingness to work with our internal policies and procedures regarding selection of bids as well as our Purchase Order approval process. Should you have any questions or require any additional information, please do not hesitate to contact me at (919) 525-8617.

Sincerely,

A handwritten signature in black ink, appearing to read "Catherine Thomas-Grazioli". The signature is written in a cursive style with a large initial "C" and "T".
