Thank you for your inquiry. Our program is not currently working on any old landfills in Mitchell County and we do not have a site in our inventory at those coordinates. If you have any additional information I can check further as we do not consider our inventory list complete.

Best regards,

Cheryl Marks, Pre-Regulatory Landfill Unit Supervisor

Cheryl,

We received a stream enhancement proposal for Grassy Creek in Mitchell County. Location: NC 226;  
Lat – 35.891666 Long - -82.065174.

In the narrative, they state that “the right bank consists of an old landfill.” They are proposing realignment of part of the channel.

Please let me know if there are concerns that they need to address. Thanks so much  
Melissa
