Mr Miller,
Thank you for your email. I am very interested in the history of the property use in regards to Mangum Estates. I have a Civil Investigator assigned to the Stony Hill Site that will likely want to know what you know. His name is Herb Miller and I am cc'ing him on this email.

Thanks

Kenneth,

You spoke to my wife this morning at our house, Nicole Miller. While I hope the contamination is not too wide spread, I may be able to point you to a possible source.

I was told by the original land owner of the subdivision that the gully on Ledbury was actually a "farm dump". Apparently after the property was sold and developing began, it was discovered that the gully was full of debris from years of uncontrolled dumping. It is conceivably possible that dumping occurred there from the people on Stony Hill Rd as those old families are all interconnected. Let me know if you want to pursue this further and I can provide you more details.

Brandon
