RE: Quarterly Report #26
BASF (formerly Takeda) – Wilmington, North Carolina
REC Docket Number 09-SF-303

Dear Ms. Macdonald:

The following letter report has been prepared to provide a summary of work completed during the first quarter 2016 for the above-referenced site. The effective date for the Administrative Agreement (AA) noted above was August 19, 2009. This report also includes certification statements by the Responsible Party and Registered Site Manager.

First quarter 2016 work included modifications to a previously prepared draft application for a risk-based site closure. As noted in our previous quarterly report, the application package submittal is planned for delivery in the second quarter 2016. However, it is possible that a third quarter 2016 submittal may occur. Work is progressing in a manner to achieve the mandatory work phase completion deadlines as specified in the REC Program rules.

If you have any questions, please call me or Mr. Vernon Burrows at (973) 665-4829.

Sincerely,
ELM Site Solutions, Inc.

Rusty Norris, PE, PLS, RSM
Senior Engineer

c: Mr. Vernon Burrows
