Re: Quarterly Status Report #3
Wix Filtration Corp. LLC – Dixon Plant. Gastonia, Gaston County
Site ID No NONCD0002925

Dear Mr. Caulk:

Wix Filtration Corp. LLC (Wix) and WSP USA Corp. (WSP), the Registered Environmental Consultant (REC) retained by Wix, are providing this quarterly status report on the activities performed from January 2016 through March 2016, as part of the voluntary investigation being conducted at the Wix-Dixon Plant located in Gastonia, Gaston County, North Carolina (Site). This status report is being submitted in accordance with Section III.E of the REC Administrative Agreement (Docket No. 15-SF-394) between the North Carolina Department of Environmental Quality and Wix.

During the reporting period, WSP began preparation of the project plans necessary for the completion of the investigation activities at the Site. The majority of the Remedial Investigation (RI) Work Plan, which provides site background information along with a discussion of the investigation scope of work and schedule, has been drafted for the site. This work plan should be completed and finalized during the second quarter of 2016. In addition, a site-specific Health and Safety Plan (HASP) was prepared for use by the field team during performance of the site investigation activities. As with the RI Work Plan, the HASP should be finalized by the next quarterly reporting period.

As of the end of the reporting period, sufficient progress has been made toward the completion of the RI work phase by the June 2018 deadline specified in Section III.B of the Administrative Agreement.

If you have any questions concerning the status report, please do not hesitate to contact me at the above number or Keith Clark of Affinia Group, Inc. at (704) 869-3429.

Sincerely,

Robert E. Johnson
