**Subject:** RE: Internal Notification of Brownfields Application - Beaufort Marine Park (19066-15-07)

Dear Mr. Watson:

The WaRO UST Section has one incident at the site (Belhaven Lots – Former Bulk Plant). The site is currently ranked as an Intermediate Risk. Petroleum contaminated soil was to be excavated this year. To date, the UST Section has not received a report concerning the proposed excavation.

This site will probably rank low and potentially be closed-out with a deed recordation once the risked-based rules are allowed for petroleum non-ust releases.

If you have any questions, please contact me.

Thanks,

Scott Bullock, L.G.
