

# Brownfields Property Application

North Carolina Brownfields Program

[www.ncbrownfields.org](http://www.ncbrownfields.org)

## I. PROSPECTIVE DEVELOPER (PD) INFORMATION {USE TAB KEY TO GET TO NEXT DATA ENTRY LINE – DO NOT USE THE RETURN KEY}

### A. PD information:

Entity name	Beaufort County Government
Principal Officer	Brian Alligood, County Manager
Representative	Seth Laughlin, Planning Director
Mailing Address	220 North Market Street Washington, NC 27889
E-mail address	seth.laughlin@co.beaufort.nc.us
Phone No.	252-946-7182
Fax No.	252-940-6154
Web site	www.co.beaufort.nc.us

### B. PD contact person information (i.e., individual who will serve as the NCBP's point of contact if different than above):

Name  
Company  
Mailing Address  
  
E-Mail Address  
Phone No.  
Fax No.

### C. Information regarding all parent companies, subsidiaries or other affiliates of PD (attach separate sheet(s) if necessary):

#### (Use for LLCs)

Member-managed or manager-managed? **Answer:**

If manager-managed, provide name of manager and percent of ownership:

Name

Ownership (%)

Mailing Address

E-Mail Address

Phone No.

Fax No.

For all LLCs, list all members of the LLC and provide their percent of ownership:

Name

Ownership (%)

Mailing Address

E-Mail Address

Phone No.

Fax No.

Name

Ownership (%)

Phone No.

Fax No.

- D. Does PD have or can it obtain the financial means to fully implement a brownfields agreement and assure the safe reuse of the property? *(Attach supporting documentation such as letters of credit, financial statements, etc.)*

Answer      Yes, Beaufort County has the financial means to fully implement a brownfields agreement and assure the safe reuse of the property.

Explanation    The financial means to support the brownfields agreement will be provided through the Beaufort County General Fund budget.

- E. Does PD have or can it obtain the managerial means to fully implement a brownfields agreement and assure the safe use of the property?

Answer      Yes

Explanation    The managerial means to support the brownfields agreement includes support from Beaufort County, the county attorney, and the Town of Belhaven.

F. Does PD have or can it obtain the technical means to fully implement a brownfields agreement and assure the safe use of the property?

Answer Yes

Explanation The technical team to support the implementation of the brownfields agreement and to assure the safe use of the property include Beaufort County and the Town of Belhaven (example: public safety departments).

G. Does PD commit that it will comply (and has complied, if PD has had a prior project in the NCBP) with all applicable procedural requirements of the NCBP, including prompt payment of all statutorily required fees?

Answer Beaufort County commits that it will comply with all the applicable procedural requirements of the NCBP, including prompt payment of all statutorily required fees.

*(List all NCBP project name(s) and NCBP project ID numbers where PD or any parent company, subsidiary and other affiliate of PD has been a party to.)*

N/A

H. Does PD currently own the property?

Answer No, Beaufort County currently does not own the property. There is a mutual agreement between the current property owners and Beaufort County that the property will be donated to Beaufort County. Please see the attached supporting documentation of the intentions of the property owners to donate the property.

If yes, when did PD purchase the property and from whom? *(Provide name, address, telephone number and email address of the contact person for the current property owner.)*

If no, provide the name, address, telephone number and e-mail address of the contact person for the current property owner

Greenwood Acres, LLC (Belhaven Lots): Wood Beasley, cell phone: 252-398-6022, 252-356-4129, or 252-862-0236, woodb3@mindspring.com, PO Box 1386, Highway 42 West, Ahoskie, NC 27910

Front Porch Acquisition, LLC (Cooperage Tract): the Ross Family authorized agent, Don Parrot, CPA, office number 252-321-0505, 1003 Red Bank Road, Greenville, NC 27858. The Ross family requested communications regarding this property go through their authorized agent.

- I. If PD does not currently own the property, does PD have the property under contract to purchase?

Answer        **The property is not currently under contract.**

If yes, provide date of contract.

If no, when does the PD intend to purchase the property (e.g., after the project is determined to be eligible for participation in the NCBP, after PD receives a draft BFA, after the conclusion of the brownfields process)? Note: the Act requires the PD to demonstrate that it intends to either buy or sell the property.

**There is a mutual agreement between the current property owners and Beaufort County that the property will be donated to Beaufort County. Beaufort County is willing to accept the property donation after the project is determined to be eligible for participation in the NCBP. Please see the attached supporting documentation of the intentions of the property owners to donate the property.**

- J. Describe all activities that have taken place on the property since PD or PD's parents, subsidiaries and/or other affiliates, and/or lessees or sublessees of PD, took ownership of or operated at the property (e.g., industrial, manufacturing or commercial activities, etc.). *(Include a list of all regulated substances as defined at NCGS § 130A-310.31(b)(11) that have been used, stored on, or otherwise present at the property while those activities were conducted, and explain how they were used.)*

**The property has been unused and vacant since the previously identified commercial businesses have been closed and demolished in the late 1990s, early 2000s.**

## II. SITE INFORMATION

- A. Information regarding the proposed brownfields property:

Proposed project name        **Beaufort County Marine Industrial Park (BCMIP)**

acreage    **32.27 acres** street address(es)        **South corner of the intersection of NC HWY 99 and West Main Street (Highway 264 Business)**

city    **Belhaven**        County    **Beaufort**    zip        **27810**

tax ID(s) or PIN(s)        **15022739 (GPIN 7606-41-2673, 7606-42-4312 owned by Front Porch Acquisition, LLC) and 10013474 (GPIN 7606-42-3404, 7606-42-3440 owned by Greenwood Acres, LLC)**

past use(s)        **The project area was developed in the 1900s as the Interstate Cooperate Company, which was a barrel making facility and lumber mill that had kilns and**

cured wood products. The project area was also known as the JL Roper Lumber Company. Additionally, the Pocomoke Guano fertilizer storage facility, the Belhaven Veneer and Plywood Company, the Belhaven Feed Mill, which was an agricultural supply and feed store that stored and sold pesticides, herbicides, and fertilizers, and Eastern Fuels, Inc, which was a bulk petroleum facility, were additional historical uses of the property. There was also a marina with fueling capabilities located on the site.

current use(s) The project area is currently un-used land with remnants of the former marina (boat ramp and docking areas) and the dilapidated structures associated with the former lumber mill (several building including the smokestack). The structures are currently overgrown with vegetation. Additionally, there are wetland areas located on the site.

cause(s)/source(s) of contamination:

known There are documented releases from the marina, Belhaven Feed Mill, and Eastern Fuels, Inc. facilities.

suspected

- B. Regulatory Agency Involvement: List the site names and all identifying numbers (ID No.) previously or currently assigned by any federal, state or local environmental regulatory agencies for the property. The ID No's may include [CERCLIS numbers](#), RCRA generator numbers for past and present operations, [UST database](#), [Division of Water Quality's incident management database](#), and/or [Inactive Hazardous Sites Branch inventory numbers](#). *(In many instances, the PD will need to actively seek out this information by reading environmental site assessment reports, reviewing government files, contacting government officials, and through the use of government databases, many of which may be available over the internet.)*

Agency Name/ID No: [NCDENR, Division of Waste Management, Superfund Section, Inactive Hazardous Sites Program/ NONCD0001164](#)

Agency Name/ID No: [NCDENR, Division of Waste Management, UST Section, Leaking Aboveground Storage Tank \(LAST\) WA-87655, Incident #87655](#)

Agency Name/ID No: [NCDENR Aquifer Protection Section, APS Incident #87655 \(Belhaven Lots\)](#)

Agency Name/ID No: [NCDENR Aquifer Protection Section, APS Incident #87178 \(Cooperage Tract\)](#)

Agency Name/ID No:

- C. In what way(s) is the property abandoned, idled, or underused?

The site has remained unused since the Belhaven Feed Mill, Eastern Fuels, and the marina were demolished in the early 2000s. Additionally, the former lumber mill with associated structures are dilapidated and overgrown with vegetation.

D. In what way(s) is the actual or possible contamination at the property a hindrance to development or redevelopment of the property (attach any supporting documentation such as letters from lending institutions)?

The property is listed as a State Hazardous Waste Site and has an open Leaking Aboveground Storage Tank (LAST) incident, which could hinder potential buyers/developers from obtaining financial/lending support from lending institutions.

E. In what way(s) is the redevelopment of the property difficult or impossible without a brownfields agreement (attach any supporting documentation such as letters from lending institutions)?

The site has unresolved environmental concerns that could make the property difficult to redevelop if the new owners are not offered liability protection for these unresolved environmental concerns.

F. What are the planned use(s) of the redeveloped brownfields property to which the PD will commit? Be as specific as possible.

The proposed planned uses include the rehabilitation of the former marina into a NC Wildlife Resources Commission boat ramp with floating docks and associated parking spaces (including boat trailer spaces, single car parking spaces and ADA compliant parking). Additional proposed development includes general light industrial development. Also included is an eco-tourism opportunity consisting of boardwalks and a pier for fishing.

G. Current tax value of brownfields property: \$2,018,084.00 - combined tax value of all parcels

H. Estimated capital investment in redevelopment project: \$4,344,000 combined total capital investment in redevelopment project

Breakdown:

- \$3,500,000 - Estimated costs for Industrial area;
- \$394,000 - Estimated costs for proposed boardwalk; and
- \$450,000 - NC Wildlife Boating Access and associated improvements.

I. List and describe the public benefits that will result from the property's redevelopment. Be as specific as possible. (Examples of public benefits for brownfields projects include job creation, tax base increases, revitalization of blighted areas, preserved green space, preserved historic places, improving disadvantaged neighborhood quality-of-life related retail shopping opportunities, affordable housing, environmental cleanup activities or set asides that have community or environmental benefits. In gauging public benefit, NCBP places great value upon letters of support from community groups and local government that describe anticipated improvements in quality of life for neighboring communities that the project will bring about. The inclusion of such support letters with this application is recommended and encouraged.)

The site is approximately 32.27-acres in size and consists of vacant land and the historic structures associated with the former lumber mill known as the Interstate Cooperage Company. Significant mill ruins, which are currently overgrown with vegetation, remain onsite including a smoke stack, foundations, and storage buildings, as well as, structures likely associated with the

loading and unloading of lumber products. These remaining structures were constructed of bricks and metal pilings and beams. Additionally, metal and wood debris from other former industry and several metal aboveground storage tank (ASTs) in poor condition remain. A former marina and boat ramp remain on the western portion of the site, although the boat ramp appears to still be in use by local residents at their own risk.

The subject site is located within the municipal boundary of the Town of Belhaven, North Carolina with a population of 1,630, according to the 2014 Census. Belhaven has experienced a steady decline in population over the last several decades, with the most recent population high of 2,430 in 1980. This decline in residents can be attributed to declines in logging and fishing resources, coupled with the national economic recession of 2008. Most recently, Belhaven has succumbed a tremendous blow with the closing of the Pungo Hospital in 2012, which cost the Town of Belhaven 155 jobs. Additionally, the closing of Privateer Boats in 2015, resulting in the loss of 8 jobs.

The proposed acceptance of this property by Beaufort County (County) would be a benefit to the health and quality of life, as well as, a potential economic boost of the Belhaven community. This beautiful site along Pungo Creek has been abandoned, at least in part, for several decades. Neglected brownfields contribute to declining property values and quality of life, and potentially pose risks to human safety and environmental health.

This site will allow the County to promote badly needed economic development in Belhaven. The County is interested in establishing a Marine Industrial Park beginning with a portion of this site farthest from the waterfront. The Beaufort County Economic Development Department is currently in preliminary negotiations with three boat manufacturers about this site. The Beaufort County Committee of 100 is considering financing the building of a manufacturing facility that could be leased or sold to one or more boat manufacturers. This project could induce significant private investment estimated at \$3,500,000, but it may also create an estimated 75 new jobs in a rural area of a Tier 1 County that continues to struggle with recent job losses. This project is critical for the economic viability of the Town of Belhaven. It will be a centerpiece of their plan for economic recovery and continued ecotourism efforts.

In addition to the business activity of building boats, both motor and sail, it is envisioned that other related activities will provide Belhaven with employment opportunities. Activities such as boat re-fit and repair services, new boat shakedown and charter cruises, boat races and other events that may offer opportunities for expanded accommodation and services industry in Belhaven. Also, the cluster of marine activity would create an environment attractive to other marine related manufacturers and service organizations.

The location of this site is attractive to the marine manufacturing and service industry, due to its close proximity to the Town of Belhaven for accommodation, restaurants and other infrastructure, its proximity to the Intracoastal Waterway attracting boats from the 1,300 mile waterway from Maine to Florida and its proximity with no bridges restricting mast heights to the Atlantic Ocean through the Oregon Inlet. The development of this site will truly enhance Belhaven's reputation as the "beautiful harbor", adding economic activity, helping Belhaven recover from the recent job losses and stagnant economy.

The County's proposed reuse for the marina area would consist of improvements to the existing boat launch and immediately adjacent land through continued partnership with North Carolina Wildlife Resources Commission (Wildlife). County staff is currently in negotiations with Wildlife on design specifics to create the third NC Wildlife Public Boat Access Area in the County on this

site. This redevelopment will provide opportunity for launching not only recreational motorized and sailing vessels, but also canoes and kayaks.

The wetlands/historic area offer both an eco-tourism and historic destination. Future development of a boardwalk system and accompanying fishing pier would provide up to a one-mile walking trail loop, with more than ¼ mile of waterfront that can be utilized for recreational and subsistence fishing. Many residents in the Belhaven area cannot afford to own a boat, but have historically relied heavily on the waterways to provide food for the table. As time has gone by, the open beaches of have been sold and converted to private residential development. The proposed docks and boardwalks within this project would help replace this desperately needed access to fishable waters.

Beaufort County and the Town of Belhaven are very enthusiastic about the potential economic development opportunities, in addition to creating more public water access with this site. Constructing boardwalks around the wetlands will provide great opportunities for fishing, sightseeing, exercise, and bird watching.

This project has three components, all of which have economic impact for Belhaven and the northeastern sections of Beaufort County. A summary of the impact of these components is below:

1. Industrial Park Portion- estimated \$3,500,000 private investment and 75 jobs

This is for two manufacturing sites on the road frontage section of the property.

2. Fish & Wildlife Portion – estimated investment \$450,000

This is for the new boat launch/ boats slips and parking area.

3. Historic/Ecotourism Portion- estimated investment \$394,000

This is for a boardwalk and pier in the historic and wetland section of the property.

Special Note: Please describe all environment-friendly technologies and designs PD plans to utilize in its redevelopment strategy. For example, environment friendly redevelopment plans could include: Leadership in Energy and Environmental Design (LEED) Certification, green building materials; green landscaping techniques such as using drought resistant plants; energy efficient designs, materials, appliances, machinery, etc.; renewable sources of energy, and/or recycling/reuse of old building materials such as brick or wood.

The County will encourage the developers of the site to use environmentally-friendly technologies, including LEED Certification, green building materials and landscaping techniques, and renewable sources of energy.

J. Who will own the brownfields property when the Notice of Brownfields Property is filed with the register of deeds at the conclusion of the brownfields process? (If information is the same as 1.A. above, please indicate.)

Name	Beaufort County Government
Mailing Address	220 North Market Street Washington, NC
E-Mail Address	seth.laughlin@co.beaufort.nc.us
Phone No.	252-946-7182

Fax No. 252-940-6154

### III. OTHER REQUIRED INFORMATION

A. Brownfields Affidavit: PD must provide its certification, in the form of a signed and notarized original of the unmodified model brownfields affidavit provided by NCBP, that it did not cause or contribute to contamination at the property and that it meets all other statutory eligibility requirements. *(Note: The form to use for this affidavit is attached to this application. It must be filled out signed notarized, and submitted with this application.)*  
Is the required affidavit, as described above, included with this application?

Answer Yes, please see attached supporting documentation.

B. Proposed Brownfields Agreement Form: PD must provide the completed form Proposed Brownfields Agreement. *(Note: The form to use for this document is attached to this application. It must be filled out, initialed, and attached on your submittal.)*  
Is the required Proposed Brownfields Agreement, as described above, included with this application?

Answer Yes, please see attached supporting documentation.

C. Location Map: PD must provide a copy of the relevant portion of the 1:24,000 scale [U.S.G.S. topographic quadrangle map](#) that shows the property clearly plotted, and that measures at least an 8 ½ by 11 inches. *(Note: these maps can be purchased through the above link, or often through retail outdoor recreation stores that can print out the relevant map. Often environmental reports have location maps that use this type of map as the base for its location map.)*  
Is the required location map included with this application?

Answer Yes, please see attached supporting documentation.

D. Survey Plat: PD must provide a preliminary survey plat of the brownfields property with the property boundaries clearly identified, and a metes and bounds legal description that matches the property description on the plat. At this stage of the brownfields process; one or more existing survey plats from a previous property conveyance will suffice. *(Before the brownfields project enters the public comment phase of the brownfields process, the PD will be required to submit a final brownfields survey plat which includes the information listed in the brownfields [survey plat guidance](#).)*  
Is the required preliminary survey plat included with this application?

Answer Yes, please see attached supporting documentation.

E. Site Photographs: PD must provide at least one pre-redevelopment photograph of the property, in either hard copy or electronic format that shows existing facilities and structures. **Please note that the NCBP prefers to have electronic photos instead of or in addition to hard copies. Electronic copies of photographs should be emailed to:**

[Shirley.Liggins@ncdenr.gov](mailto:Shirley.Liggins@ncdenr.gov) with a clear indication as to which Brownfields Application they apply to.

Are photographs of the property included with this application?

Answer Yes, please see attached supporting documentation.

Have electronic copies of the photographs been emailed to NCBP?

Answer Yes

F. Environmental Reports/Data: If it makes an affirmative eligibility determination, the NCBP will request that PD provide any and all existing environmental reports and data for the property on **CD only**. The brownfields process may be expedited if PD submits such reports/data with this application.

Are any environmental reports/data being submitted with this application?

Answer Yes

If environmental reports/data are being submitted with this application, please provide the title, date and author of each item being submitted:

**Cooperage Tract:**

**Phase I Environmental Site Assessment (ESA), Quible & Associates, PC, March 2004**

**Phase II ESA: Soil and Groundwater Sampling, Quible & Associates, PC, June 1, 2004**

**Notification of Inactive Hazardous Substance or Waste Disposal Site Form, NCDENR, September 21, 2004**

**Correspondence Letter, Ward & Smith, PA, October 1, 2007**

**Inactive Hazardous Waste Site Priority List Notification, NCDENR, November 28, 2012**

**Inactive Hazardous Waste Site Priority List Notification, NCDENR, February 10, 2014**

**Phase I ESA, ECS Carolinas, LLP, dated March 30, 2015**

**Belhaven Lots:**

**Corrective Action Plan: The Belhaven Lots, Geological Resources, Inc., November 8, 2006**

**Groundwater Monitoring Report: The Belhaven Lots, Geological Resources, Inc., June 12, 2012**

#### **IV. ADDITIONAL REQUIRED FORMS**

**The following forms are to be filled out and submitted with the application including the Responsibility and Compliance Affidavit and the Proposed Brownfields Agreement. Submittal of the Affidavit requires signature and notarization, and the Proposed Brownfields Application requires an initial.**

**NORTH CAROLINA DEPARTMENT OF ENVIRONMENT  
AND NATURAL RESOURCES  
NORTH CAROLINA BROWNFIELDS PROGRAM**

**IN THE MATTER OF: Beaufort County Government**

**UNDER THE AUTHORITY OF ) AFFIDAVIT  
NORTH CAROLINA GENERAL ) RE: RESPONSIBILITY  
STATUTES  $\text{\textcircled{a}}$  130A-310.30, et. seq. ) AND COMPLIANCE**

Beaufort County Government, being duly sworn, hereby deposes and says:

1. I am <<Brian Alligood, County Manager>> of Beaufort County Government.
2. [if signatory is not President, add this paragraph: "I am fully authorized to make the declarations contained herein and to legally bind Beaufort County Government."]
3. Beaufort County Government is applying for a Brownfields Agreement with the North Carolina Department of Environment and Natural Resources, pursuant to N.C.G.S.  $\text{\textcircled{a}}$  130A, Article 9, Part 5 (Brownfields Act), in relation to the following 7606-41-2673, 7606-42-4312, 7606-42-3404, 7606-42-3440 parcel(s) in Belhaven, Beaufort, County, North Carolina: NC Hwy 99 and West Main.
4. I hereby certify, under the pains and penalties of perjury and of the Brownfields Act, that Beaufort County, and any parent, subsidiary or other affiliate meets the eligibility requirements of N.C.G.S.  $\text{\textcircled{a}}$  130A-310.31(b)(10), in that it has a *bona fide*, demonstrable desire to **buy**  **sell**  for the purpose of developing or redeveloping, and did not cause or contribute to the contamination at, the parcel(s) cited in the preceding paragraph.
5. I hereby certify, under the pains and penalties of perjury and of the Brownfields Act, that Beaufort County meets the eligibility requirement of N.C.G.S.  $\text{\textcircled{a}}$  130A-310.32(a)(1) in that it and any parent, subsidiary or other affiliate have substantially complied with:
  - a. the terms of any brownfields or similar agreement to which it or any parent, subsidiary or other affiliate has been a party;
  - b. the requirements applicable to any remediation in which it or any parent, subsidiary or other affiliate has previously engaged;
  - c. federal and state laws, regulations and rules for the protection of the environment.

Affiant further saith not.

### III. Protective Measures

I am prepared to take steps necessary to make the property suitable for its planned uses while fully protecting public health and the environment. I propose that NCBP consider a brownfields agreement that will make the property suitable for the planned use(s) through the following mechanism(s) (check all that apply):

- Contaminant remediation to risk-based levels.
- Engineered Controls (e.g., low permeability caps, vapor mitigation systems, etc)
- Land use restrictions that run with the land that will restrict or prohibit uses that are unacceptable from a risk assessment/management perspective. (*Important Note: In any final brownfields agreement generated by the NCBP, land use restrictions will ultimately come with the continuing obligation to submit an annual certification that the Land Use Restrictions are being complied with and are recorded at the applicable register of deeds office.*)

### IV. Fees

In connection with a brownfields agreement, the Act requires that the developer pay fees to offset the cost to the Department of Environment and Natural Resources and the Department of Justice. In satisfaction of the Act, the following fees apply to any brownfields agreement that is developed for this project, subject to negotiation of the brownfields agreement:

- a. A \$2,000 initial fee will be due from the applicant PD when **both** of the following occur:
  - 1) NCBP receives this application and proposed brownfields agreement, AND
  - 2) NCBP notifies the applicant in writing that the applicant PD and the project are eligible for participation in the NCBP and continued negotiation of a brownfields agreement.
- b. A second fee of \$6,000 will be due from the PD prior to execution of the brownfields agreement. Should the prospective developer choose to negotiate changes to the agreement that necessitate evaluation by the Department of Justice, additional fees shall apply.

- c. Any addendum/modifications to the BFA or NBP after they are in effect will result in an additional fee of at least \$1,000.
- d. In the unexpected event that the environmental conditions at the property are unusually complex, such that NCBP's costs will clearly exceed the above amounts, NCBP and PD will negotiate additional fees.

But Please check this box and initial in space provided to indicate your acknowledgement of the above fee structure.

Date of Submittal: 9/28/15

Mr. Bruce Nicholson, Program Director  
NC Brownfields Program  
NC Dept. of Environment and Natural Resources  
1646 Mail Service Center  
Raleigh, NC 27699-1646

Dear Mr. Nicholson:

I am writing in support of the proposed reuse of the former mill (aka Cooperage) site in Belhaven, NC for public water access as well as light industry. The proposed acceptance of this property by Beaufort County would be a benefit to the Belhaven community in many ways including job creation health, and tourism. This beautiful site along Pungo Creek has apparently been abandoned for several decades, so it is wonderful to see realistic plans for its reuse.

The proposed development will provide the opportunity for launching recreational sail boats, motorized boats, canoes and kayaks. Future development of a boardwalk system will provide up to a one-mile loop, with more that  $\frac{1}{4}$  mile of waterfront that can be utilized for recreational and subsistence fishing. This responds nicely to a recommendation from a study of several years ago that stated eastern NC needed more water access sites. The Cooperage site also has enough usable land area to allow for light industry; several companies in the marine industry have spoken to us about their interest in the site.

The NC East Alliance fully supports the proposed reuse of the Cooperage Tract in Belhaven and has confidence in Beaufort County's ability to manage the site in a sustainable way.

Sincerely,

A handwritten signature in black ink, appearing to read "John Chaffee", written over a light blue horizontal line.

Beaufort County Government  
ATTN: Brian Alligood, County Manager  
121 W 3<sup>rd</sup> Street  
Washington, NC 27889

Dear Mr. Alligood

It is with great pleasure and excitement that I am writing this letter to endorse and support the potential reuse of a former mill site (the Cooperage tract)) in the Town of Belhaven. What a wonderful opportunity to be offered this property for the benefit of creating public access to water, recreation opportunities, and most of all, light industry that will certainly provide much needed jobs for this economically distressed Town and area of Beaufort County.

The proposed plans for redevelopment in partnership with wildlife resources allows for launching and access to recreational boating opportunities including canoes, kayaks, motorized vessels, and with proximity to the inter-coastal waterway, will highly benefit the sail and sailing vessel community.

I am also pleased that future visions of recreation opportunities to benefit personal health, and attraction of ecotourism to this area are being explored and planned in this reuse project. The development of a boardwalk and potential wildlife viewing areas provide our citizens and visiting tourist the ability to enjoy the beautiful aspects of the local flora and fauna throughout our beautiful and highly utilized waterway.

Finally, it is with gratitude that I have this opportunity to fully endorse the proposed plans for this site on behalf of the Mid-East Commission, and I am certain that Beaufort County will develop this project to the utmost benefit of our community, citizens, and visitors alike.

Sincerely,

N. Bryant Buck,  
Executive Director

Dear Mr. Nicholson:

As Director of the Beaufort County Economic Development Department I am writing your office today in support of the proposed reuse of the former mill site in Belhaven, NC for public water access as well as light industry. The proposed acceptance of this property by Beaufort County will be a benefit to the Belhaven community in many ways including job creation, health, and tourism. This beautiful site along Pungo Creek has been abandoned for several decades now, and it is wonderful to see realistic plans for its reuse.

The development will provide opportunity for launching recreational sail boats, motorized boats, canoes and kayaks. Future development of a boardwalk system will provide up to a one-mile loop, with more than ¼ mile of waterfront that can be utilized for recreational and subsistence fishing. The site also has enough usable area to allow for light industry, in fact several companies in the marine industry have spoken to us about their interest in the site.

This site will also become part of the County's development plan to encourage economic development in the eastern part of the County. We are the only county in North Carolina split by a large body of water. Historically this water was a great asset for traversing the county; today it hinders road transportation around the county. By redeveloping the water assets of the county we hope to bring prosperity back to the eastern rural parts of Beaufort County.

In conclusion, I am fully supportive of the propose reuse of the Cooperage Tract in Belhaven and have confidence in Beaufort County's ability to manage the site in a sustainable way.

Sincerely,

A handwritten signature in blue ink that reads "Martyn Johnson". The signature is written in a cursive style.

Raleigh, NC 27699-1646

Dear Mr. Nicholson,

I am writing your office today in support of the proposed redevelopment of the former feed mill site in Belhaven, NC. The proposed acceptance of this property by Beaufort County is a vital benefit to the Town of Belhaven and eastern Beaufort County. Benefits include job creation, health, eco-tourism and recreation. This focal point along Pantego Creek has been abandoned for several decades now, and it is important to realize the proposed redevelopment plans for best possible use of this resource.

Development plans include a boat ramp, a boardwalk, shoreline enhancement and boat building/manufacturing businesses. All of these uses are consistent with Town of Belhaven goals of providing jobs to our citizen in a healthy environment true to our coastal heritage.

Kindest Regards,

Woody Jarvis  
Town Manager  
Belhaven

1646 Mail Service Center  
Raleigh, NC 27699-1646

Dear Mr. Nicholson,

I am writing your office today in support of the proposed redevelopment of the former feed mill/Cooperage property in Belhaven, NC. The proposed acceptance of this property by Beaufort County is a golden opportunity to help re-develop property that has been idle for decades. Current plans for the property include two to three marine/boat building businesses that could potentially provide 100 jobs; establishment of a Wildlife Resources boat ramp; construction of a boardwalk with water access from walking and fishing activities on almost a greater mile of waterfront. Boatbuilding, recreation and water access are all critical to the health and economic welfare of our town and all local citizens.

I hope you will be able to help Beaufort County benefit from the reuse of this valuable asset to our area.

In conclusion, the Town of Belhaven is fully supportive if the proposed reuse of the Cooperage/feed mill tract in Belhaven and have confidence in current efforts to manage new sustainable development of this site.

Sincerely,

Adam O'Neal  
Mayor  
Town of Belhaven

Raleigh, NC 27699-1646

Dear Mr. Nicholson:

I am writing your office today in support of the proposed reuse of the former mill site in Belhaven, NC for public water access as well as light industry. The proposed acceptance of this property by Beaufort County would be a benefit to the health and quality of life of the Belhaven community. This beautiful site along Pungo Creek has been abandoned for several decades now, and it is wonderful to see realistic plans to reuse it.

Neglected brownfields contribute to declining property values and quality of life in our small towns and potentially pose risks to human safety and environmental health. Beaufort County's proposed reuse would provide opportunity for launching recreational motorized boats, but also canoes and kayaks. Future development of a boardwalk system would provide up to a one-mile walking trail loop, with more that ¼ mile of waterfront that can be utilized for recreational and subsistence fishing. The site also has the potential for small industry development, especially those that are marine related.

In conclusion, I am fully supportive of the propose reuse of the Cooperage Tract in Belhaven and have confidence in Beaufort County's ability to manage the site in a sustainable way.

Sincerely,

  
Charles F Williams, Vice President  
City Executive  
Southern Bank and Trust
