Re: Permit to Operate: Nature's Green Releaf Compost Facility, Franklin County, Permit No. 3504-COMPOST, Doc ID 26184

Dear Ms. Walsh:

Please find enclosed the Permit to Operate for the Nature's Green Releaf Compost Facility. The expiration date for the permit is March 31, 2020. We understand that the compost facility is not planned to be active at this time, but will be available to use as a backup to the company's anaerobic digester operation.

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

The stamped approved permit application, as well as other site documents, can be viewed and downloaded from our online document database:

<https://deq.nc.gov/about/divisions/waste-management/waste-management-rules-data/e-documents>. To search, type in 3504-COMPOST in the search box at the top of the page, then scroll to the right and click twice on Document Date to order the most recent first. You can also narrow down searches through the index boxes on the left.

If you have any questions regarding the permit, or with the online Documents database, please contact me at (919) 707-8255 or by email at donna.wilson@ncdenr.gov. The Solid Waste Management Specialist for the facility is Mary Whaley. She can be reached at (919) 693-5023.

Sincerely,

Donna J. Wilson
Environmental Engineer
Solid Waste Section
