Complaint Info:

CALLER REPORTING FINDING 2-3 METAL DRUMS CONTAINING UNKNOWN LIQUIDS, PLASTIC AND GLASS PILED HIGH IN A WOODED AREA ON PRIVATE PROPERTY.

Date Received: Complaint received from EPA on 02/28/2016
EPA Incident Report # 1141559

On-Site Visit: 02/29/16

Findings:

Henderson County Assistant Fire Marshal Joe Swain responded this morning to the complaint. Upon investigation, Mr. Swain found only old household garbage, what he called "water holding tanks," and rusted tractor parts. The tanks did have liquid in them which is believed to be rain water. Mr. Swain made contact with Mrs. Clark and she stated that the Clark's daughter had called the complaint in to EPA after finding this material in the woods on their 3 acre property.

Mr. Swain did not express concern regarding the materials that he observed and did not request that any other agencies respond at this time.

No further action is required at this time.
