Re: Yard Waste Notification – Hertford County
Town of Ahoskie Yard Waste Site – YWN46002

Dear Mr. Rogers,

The Solid Waste Section has received your yard waste facility notification form. As long as your facility only processes and stores less than 6,000 cubic yards of the following materials on a quarterly basis, you can continue to operate by notifying the Section on an annual basis **by June 1st of each year**. If your composting activities grow in size to more than 6,000 cubic yards quarterly or exceed the 2 acre size limitation please contact the Solid Waste Section for assistance in obtaining a permit.

Facilities operating under notification shall only receive:

- a. Untreated and unpainted wood waste.
- b. "Silviculture Waste" as defined in 15A NCAC 13B .0101(41); waste materials produced from the care and cultivation of forest trees, including bark and woodchips.
- c. "Yard Trash" as defined in 15A NCAC 13B .0101(55); solid waste resulting from landscaping and yard maintenance such as brush, grass, tree limbs, and similar vegetative material.
- d. "Yard Waste" as defined in 15A NCAC 13B .0101(56); yard trash and land clearing debris to include stumps, limbs, leaves, grass, and untreated wood.

Facilities operating under notification are required to operate in accordance with 15 NCAC 13B .1406 and .1404(a)(1)-(10).

If you have questions or if we can be of any other assistance please do not hesitate to contact the Environmental Senior Specialist, Mary Whaley at 919-693-5023.

Sincerely,

Martin A. Gallagher, Environmental Supervisor
Composting & Land Application Branch

6. The land on which this facility is located is described in the deed recorded in:

Deed Book: 765 Page: 765 County: Hertford

For the following questions, please fill out based on your records for the period of June 1, 2015 to May 31, 2016.

7. What types of yard waste are accepted at this facility? (check all that apply)

- | | |
|---|---|
| <input checked="" type="checkbox"/> Land clearing debris | <input checked="" type="checkbox"/> Yard trash |
| Items defined as land clearing debris: | Items defined as yard trash: |
| <input type="checkbox"/> Stumps <input type="checkbox"/> Whole trees <input checked="" type="checkbox"/> Tree limbs | <input checked="" type="checkbox"/> Grass <input checked="" type="checkbox"/> Leaves <input checked="" type="checkbox"/> Brush/shrubs |
| <input checked="" type="checkbox"/> Branches <input type="checkbox"/> Untreated wood | <input type="checkbox"/> Other yard trimmings |
| <input type="checkbox"/> Other (specify) _____ | |

8. Provide the quarterly volumes of yard waste (cubic yards) for this facility:

Quarter	Cubic Yards Received	Cubic Yards Removed
June 1 - August 31	6,000	6,000
September 1 - November 30	6,000	6,000
December 1 - February 29	6,000	6,000
March 1 - May 31	6,000	6,000
Total	24,000	24,000

9. Is this facility a temporary holding site or is material processed on-site? Temporary Holding Site Processed on-site

10. If this is a temporary holding site, list the name(s) of the facility (or facilities) where the material is taken to:

11. Describe the composting process used and the use of the finished compost product:

The description of the compost process must minimally include formation of windrows or annual turning of leaves (i.e. passive composting). Temperatures must be monitored daily to maintain a temperature of at least 131°F. If additional processing is done, explain briefly (e.g. usage of tub grinder, monthly aeration, etc.)

Windrow composting is placed in long windrows and the material is turned periodically to accelerate the composting process and provide uniform compost. An open space is left between each windrow to allow room for turning equipment.

Leaves are placed in windrows, temperatures are monitored constantly and turned as often as needed

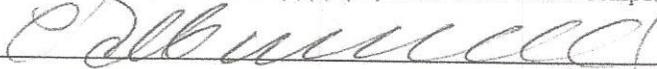

If additional processing is done, it is done by tub grinders

12. Describe the mulching process used and use of finished mulch product:

The description of the mulching process must minimally include a description of the process, usage of a tub grinder, etc. *If you checked anything under the yard trash category, you must either compost or sell the mulched product for boiler fuel.*

Mulching process is done by tub grinder, the end results are sold as boiler fuel to local plants

CERTIFICATION: To the best of my knowledge and belief, I certify the information provided in this notification is true, accurate, and complete. Furthermore, the facility will comply with the operational and setback requirements of Small Type 1 Compost (yard waste) facilities as outlined in .1406 and .1404(a)(1)-(10) of the Solid Waste Compost Rules.
