Re: Confirmation Sampling Plan Report

Dear Mr. Murphy:

I have reviewed the results of the Confirmation Sampling Plan submitted in response to the Notice of Violation Docket number 2010-067.

All confirmation sample results show that the levels for the contaminants of concern and pH are below the NC Hazardous Waste Section Soil Screening Levels. No further action is required for the remediation of the Caustic Tank area and the Chemical storage shed as noted in the Notice of Violation.

If you have any questions concerning this matter, please contact me at the numbers listed below.

Sincerely,

Roberta Proctor, Environmental Chemist
Hazardous Waste Section
