None

OBSERVED VIOLATIONS:

None

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may also be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

On July 26, 2016, John Patrone met with Robert Fryar to conduct a comprehensive inspection of the Fryar Grading and Hauling, Inc. LCID Landfill on McLeansville Road in McLeansville, Guilford County.

1. The facility is a land clearing and inert debris (LCID) landfill.
2. The facility is owned and operated by Robert Fryar.
3. The permit approves the operation of the 2010 Cell and the construction of the 2015 Cell.
4. The facility is operating in the 2010 Cell [Phase 2].
5. Mr. Fryar stated that the 2015 Cell [Phase 3] has not been constructed.
6. Ensure Attachment 2 – Conditions of Permit to Construct are met prior to the operation of the 2015 Cell.
7. The facility permit, site plan, and operations plan were discussed.
8. The facility is in operation Monday through Friday 7:30 am to 5:00 pm.
9. The facility is permitted to receive waste generated within Alamance and Guilford Counties.
10. The facility is permitted to receive land clearing waste, yard trash, untreated and unpainted wood, uncontaminated soil, inert debris, and (used) asphalt.
11. Solid waste must be covered with 1 foot of suitable soil cover at least once per month, or when the active area reaches one acre in size, whichever occurs first.
12. Solid waste shall be restricted to the smallest area feasible and compacted as densely as practical into cells.
13. Excavation, grading, and fill material side slopes must not exceed a ratio of three horizontal feet to one vertical feet (3:1).
14. The facility annual report (FAR) was received by the SWS, dated July 23, 2016. Estimated facility throughput for July 2015 through June 2016 is 109,200 yd³.
15. A ready supply of soil shall be available for cover material.
16. Ensure edge of waste markers are installed after grading activities.
17. There was no indication of erosion or runoff.
18. Access roads are of all-weather construction.
19. The facility is secured by a locked gate.
20. The facility has a proper sign.
21. The PTO expiration date is April 19, 2021.
22. The permit renewal application shall be submitted to the SWS by October 15, 2020.
