Subject: RE: Wayne Co Subtitle D Lined MSWLF (9606March2016) Semi-Annual Water Quality Monitoring Report

Good morning Jonathan,
Based upon the August 2015 and the March 2016 monitoring events, benzene has exceeded the 2L NC Standard within groundwater monitoring well MW-13 (adjacent to Phase 2). As a result, the submittal of an Assessment Monitoring Plan pursuant to 15A NCAC 13B .1634 to initiate assessment monitoring for the Wayne County Subtitle D Lined Landfill will be required. Please contact me at your earliest convenience so we can discuss further.

Thanks,
Jackie

Subject: Wayne Co Subtitle D Lined MSWLF (9606March2016) Semi-Annual Water Quality Monitoring Report

Dear Ms. Drummond,

Attached is the *Semi-Annual Water Quality Monitoring Report* for the Wayne Co. Subtitle D lined MSWLF for the event performed in March 2016.

A hard copy will only be sent to the facility but will gladly be sent to the SWS upon request.

The associated laboratory data EDD is also attached.

If you have any questions please don't hesitate to contact us.

Thank You,
Jonathan
