Re: Yard Waste Notification – Craven County  
Coastal Bridgeton – YWN25002

Dear Mr. Church,

The Solid Waste Section has received your yard waste facility notification form. As long as your facility only processes and stores less than 6,000 cubic yards of the following materials on a quarterly basis, you can continue to operate by notifying the Section on an annual basis **by June 1<sup>st</sup> of each year**. If your composting activities grow in size to more than 6,000 cubic yards quarterly or exceed the 2 acre size limitation please contact the Solid Waste Section for assistance in obtaining a permit.

Facilities operating under notification shall only receive:

- a. Untreated and unpainted wood waste.
- b. "Silviculture Waste" as defined in 15A NCAC 13B .0101(41); waste materials produced from the care and cultivation of forest trees, including bark and woodchips.
- c. "Yard Trash" as defined in 15A NCAC 13B .0101(55); solid waste resulting from landscaping and yard maintenance such as brush, grass, tree limbs, and similar vegetative material.
- d. "Yard Waste" as defined in 15A NCAC 13B .0101(56); yard trash and land clearing debris to include stumps, limbs, leaves, grass, and untreated wood.

Facilities operating under notification are required to operate in accordance with 15 NCAC 13B .1406 and .1404(a)(1)-(10).

If you have questions or if we can be of any other assistance please do not hesitate to contact the Environmental Senior Specialist, Ray Williams at 252-948-3955.

Sincerely,

Martin A. Gallagher, Environmental Supervisor  
Composting & Land Application Branch

Pursuant to 15A NCAC 13B .1401(a), this provision applies to facilities that accept, store, or produce compost or mulch from yard waste.

Pursuant to 15A NCAC 13B .1402(g)(3), the owner or operator of any Type 1 Solid Waste (yard waste) facility which occupies less than two acres of land and processes and stores less than 6,000 cubic yards of material quarterly shall **submit this form to the Department prior to operation.**

1. Facility Name: CoastalBridgeton\_YWN2106

2. Please e-mail an aerial photograph of the site to michelle.sclafani@ncdenr.gov

YWN25002

- With a scale of 1 inch = 400 feet or less
- Must show the area around the proposed facility for at least 0.25 mile
- Photographs are available from most county tax or planning offices

7. The land on which this facility is located is described in the deed recorded in:

Deed Book: 3319 Page: 513 County: Craven

8. What types of yard waste will be accepted at this facility? (check all that apply)

Land clearing debris

Yard trash

Items defined as land clearing debris:

Items defined as yard trash:

Stumps     Whole trees     Tree limbs

Grass     Leaves     Brush/shrubs

Branches     Untreated wood

Other yard trimmings

Other (specify) Root Mat

9. Provide the approximate anticipated quarterly volumes of yard waste (cubic yards) for this facility:

Quarter	Cubic Yards Received	Cubic Yards Removed
June 1 - August 31	6,000	6,000
September 1 - November 30	6,000	6,000
December 1 - February 28	6,000	6,000
March 1 - May 31	6,000	6,000
Total	24,000	24,000

10. Will this facility be a temporary holding site or is material processed on-site?  Temporary Holding Site  Processed on-site

11. If this is a temporary holding site, list the name(s) of the facility (or facilities) where the material will be taken to:

N/A

11. Describe the composting process to be used and the end use of the finished compost product:

The description of the compost process must minimally include formation of windrows or annual turning of leaves (i.e. passive composting). Temperatures must be monitored daily to maintain a temperature of at least 131°F. If additional processing is done, explain briefly (e.g. usage of tub grinder, monthly aeration, etc.)

We do not plan to compost, but rather use a variety of machinery to sort and process material. Including screen plants, trommel screens, horizontal grinders, micro grinders, firewood processors, and chop saws. Upon completion of the processing we plan to end up with a variety of different products for resale or use. Including fuel chips, pellet chips, structural lumber, firewood, and colored mulch.

11. Describe the mulching process to be used and the end use of the finished mulch product:

The description of the mulching process must minimally include a description of the process, usage of a tub grinder, etc. *If you checked anything under the yard trash category, you must either compost or sell the mulched product for boiler fuel.*

The process utilized will be dependent upon the type of material received. If root mat / yard debris is received it will be processed through a trommel for sizing and removal of dirt and topsoil. Then all the material will be processed through a horizontal grinder for use as boiler fuel which we will sell. Large woody debris will be either processed into firewood, structural lumber, or ran through a horizontal grinder and then colored mulch. Otherwise, the material will be ran through the micro-chipper and sold to Enviva who exports wood pellets.

**REMINDER:** This notification is not complete until the aerial photograph is received. E-mail the aerial photograph of the site to [michelle.sclafani@ncdenr.gov](mailto:michelle.sclafani@ncdenr.gov)

**CERTIFICATION:** To the best of my knowledge and belief, I certify the information provided in this notification is true, accurate, and complete. Furthermore, the facility will comply with the operational and setback requirements of Small Type 1 Compost (yard waste) facilities as outlined in .1406 and .1404(a)(1)-(10) of the Solid Waste Compost Rules.
