I will draft Mercedes' comments up. Would you like to see it before I send it to the County or do you just want to be cc'd? Thank you.

Subject: RE: Daikin Former Remediation Site Proposed Signage for Surface Water

Hi Sandy,

What a morning! I like the second sign. I think it is perfect. I would replace swimming with wading. I would not add wading on top of swimming. I prefer danger than attention but that depends on the context of the site, are people too concerned regarding the risk or not concerned enough?

My second choice would be:

Attention
Polluted water.
Avoid contact with these waters.

Example ONE provided by Dianne Harvell, New Hanover County. We were uncomfortable about the identification of vinyl chloride in the signage (see below). Ms. Harvell used the Silver Lake HAB sign as her template.

Example TWO provided by Kathy Lawson. I prefer the second sign with the addition of the “NO WADING.”

ATTENTION

SWIMMING OR OTHER CONTACT
WITH THESE WATERS
IS NOT RECOMMENDED
TESTING INDICATES LEVELS
OF VINYL CHLORIDE
THAT MAY POSE HEALTH RISKS
