Mary,

They are located on vacant city-owned lot addressed 463 Hollins Rd.

As we discussed, there is a lot of road frontage on this property which parallels the stream, and they are posted curbside, where people would enter the wooded lot to walk back to the stream. Remember, we discussed this more visible location, rather than back near the stream, where only trespassers and children would see them (not the parents who should know what their kids are playing in).

See attached picture.

Cathy

Cathy – we are having someone visit the site to take pictures of the signs for our files. Could you please let us know approximately where the signs are located? We appreciate your help. Have a nice day.
