3. The site is permitted for land application of domestic septage.
4. The site had accessible all-weather road to the septage land application field covered under the permit.
5. Appropriate signage was displayed at the site.
6. The field had disposal area boundaries that were well delineated with permanent markers which corresponded to the site map.
7. No recent septage application were observed.
8. No evidence of standing liquid or pooled waste was observed.
9. No objectionable odors were observed.
10. The field appeared to be in excellent condition with a good stand of fescue.
